

SPRAY STOVE

READY TO USE OVEN CLEANER

CODE: F38

PENETRATES AND REMOVES SOLIDIFIED HEAVY DEPOSITS OF CARBON, OIL AND GREASE

RECOMMENDED USE

Interior and exterior of ovens, grills, extraction hoods and filter trays.

USE FOR:

Carbonised grease and oil deposits.

DIRECTIONS FOR USE

Use as supplied: For baked on carbon and heavy deposits of grease.

Use a nylon brush to apply an even coat over surface. If possible apply to warm surface (MAXIMUM 50 °c) as this will speed up penetration.

After allowing sufficient time for penetration and decarbonising to take place (approx 10-30 minutes) wipe or rinse off with water.

Depending upon degree of soiling use a heavy duty scourer or scraper to remove any loose debris. Repeat above process if necessary.

CAUTION: This is a professional strength product and must be treated with utmost care. Read all product instructions carefully before use. Always wear protective clothing.

N.B. Not suitable for use on Teflon non-stick, aluminium, zinc, or alkali sensitive materials. Certain plastics and textiles may be adversely affected.

BR Cat No: 7/7730 (750ml)

PACK SIZES

HEALTH + SAFETY
